---

## PROFILE SUMMARY

---

Senior Front-End Developer with 10+ years of experience specializing in modern tech stacks and enterprise-scale application development. Proven track record in leading development teams, conducting technical training, and delivering high-performance, cross-platform products. Strong focus on performance optimization, user experience, and AI integration.

## WORK EXPERIENCE

---

### Senior Front-End Developer

Aug 2025 – Present

*FYB Technologies, Inc.* · Philippines

- Led development and delivery of enterprise-scale applications across multiple platforms:
  - White-label platforms (client-facing and back-office) built with Angular, serving multiple clients
  - Collaborated with cross-functional teams for third-party API and service integrations
  - Delivered consistent UI/UX across client-facing and back-office portals
- Lottery platform spanning back-office, mobile, terminal POS, and client-facing touchpoints:
  - Led end-to-end development across all platform touchpoints
  - Architected the mobile app using Ionic and designed the POS terminal interface
  - Coordinated multi-team efforts for seamless platform integration
- Cloud & DevOps: Managed deployment pipelines and infrastructure using AWS and Docker
- Full-stack development using Angular, C# .NET, React, and Ionic
- AI Integration: Integrated AI-powered tools to enhance user experience and automate repetitive tasks
- Led development team overseeing code reviews, best practices, and delivery timelines
- Mentored junior developers and drove consistent engineering standards across the team

### Product Engineering Specialist

Sep 2023 – Apr 2025

*Strada Global* · Philippines

- Contributed to Strada's enterprise-scale global payroll processing platform, serving organizations across multiple countries and regions
- Developed and maintained Angular-based frontend for end-to-end payroll visibility features, including real-time dashboards, payroll calendar tools, and action-oriented worklists for issue resolution
- Built UI components for payroll cycle monitoring — surfacing data alerts, pending approvals, and progress tracking across multi-country payroll portfolios
- Upgraded frontend codebase to the latest Angular framework, improving performance and maintainability of a compliance-critical enterprise product
- Deployed and managed frontend infrastructure on Azure cloud platform
- Integrated AI-powered tools to automate repetitive payroll workflows and enhance user productivity

### Senior Web Developer

May 2018 – Aug 2023

*Elevatech Solutions, Inc.* · Philippines

- Led development of an online job platform with 20,000+ users and 300,000+ listings:
  - Implemented AI-driven job matching and automated job scraping
  - Built personalization features that improved user retention by 40%

- Optimized performance to handle 10,000+ concurrent users
- Integrated search functionality using Algolia/Typesense with AI-enhanced relevance
- Deployed and maintained applications on AWS and Azure cloud platforms
- Built RESTful APIs and integrated with various third-party services
- Implemented automated document processing and categorization using machine learning
- Built chatbot interfaces for customer support automation

## Plugin Developer (WordPress)

Dec 2015 – May 2018

*WishList Member* · Remote

- Developed and maintained plugins for WishList Member — a WordPress membership platform activated on 120,000+ membership sites, courses, and online communities worldwide
- Built and extended payment integrations across 30+ providers including Stripe, PayPal, WooCommerce, ClickBank, and Authorize.net, enabling flexible one-time and recurring billing for membership sites
- Maintained third-party integrations with email providers (Mailchimp, AWeber, ActiveCampaign), automation tools (Zapier), and LMS platforms (LearnDash), ensuring cross-plugin compatibility
- Supported content protection, drip scheduling, and membership-level gating features across 50+ client WordPress sites serving 100,000+ active members
- Ensured plugin compatibility with major WordPress updates, themes, and page builders including Elementor

## EDUCATION

---

### Master of Science in Information Technology (MIT)

Ongoing

*Iloilo State College of Fisheries* · Iloilo City, Philippines

### Bachelor of Science in Information Technology (BSIT)

*Iloilo Science and Technology University – Main Campus* · Iloilo City, Philippines
